EDITORIAL

WELL DONE !

If, reader, you turn to the Staff Notes, a page or two on, you will note that three members of the Staff of the College are retiring. Retiring—it sounds so cold, so final.

With teachers of the character of the three who have come to the end of a career there is no such sense of finality. The material with which they have worked has been human material. Each has given an important part of his or her life to working with this material; working with patience, diligence and that deep understanding of young folk which marks the true teacher out from his fellow men. No doubt the young folk, the material, will roam far. They will, perhaps, remember a little of the mathematics, mechanics or home science that they were taught. They will, most of them, remember how Miss McCrostie, H. A. Kirby and T. K. McLorinan gave for them more than any salary demanded. Some will be inspired to emulate this spirit of service, the good work will not have ended.

It is in the hope of their colleagues that in their retirement the three will enjoy good health. Insofar as happiness comes from the knowledge of a job well done and from the respect of individuals with whom they have been associated, they will have it for they have earned it well.

STAFF NOTES

NEW APPOINTMENTS TO PERMANENT POSITIONS

WE WELCOME:

Mrs A. M. Neale, B.A. (English and Social Studies), who has taught in England and had commercial experience. Mrs Neale joined us as Miss Wilson, and we congratulate her on her recent marriage.

Mrs P. F. D. Whale, M.A. (English and Social Studies). Some years ago Mrs Whale was awarded a Senior Scholarship in Latin and French, a Post Graduate Scholarship in Arts and a New Zealand Research Fellowship. She has also had several years' experience in the commercial world.

Miss M. M. Cameron, B.A. (English and Social Studies), who has worked in the Canterbury Public Library, and taught in England.

Mr A. J. Nolan (Engineering Subjects). Mr Nolan served his apprenticeship in England as a fitter and turner and studied at the Southall Technical College. He has had considerable experience in industry both in England and New Zealand.

Mr M. Marshall, B.A. (English and Social Studies), who comes to us from Henley, where he was Headmaster of the Primary School. He has had many years in the Primary Service and served in the Air Force during the Second World War.

Mr A. F. Carrington (Woodwork and Allied Subjects). After serving his apprenticeship in England as a shop fitter, which included carpentry and joinery, Mr Carrington had trade experience both in England and New Zealand.

Mr W. H. Bone (Engineering Subjects). Mr Bone holds the Higher National Certificate and supplementary endorsements in Production Engineering and A.M.I.Prod.E. He was for over five years an assistant lecturer at the Regent Street Polytechnic, London, and has had many years' industrial experience in workshop technology, metrology and drawing.

Mr R. B. Brown, B.Sc. (Mathematics and Science), who graduated from the Canterbury University College in 1957 and receives his first teaching appointment.

Mr L. R. Simpson, B.Sc. (Mathematics and Science. An old boy of the school, Mr Simpson has been on the relieving staff and has had several years' experience in industry.

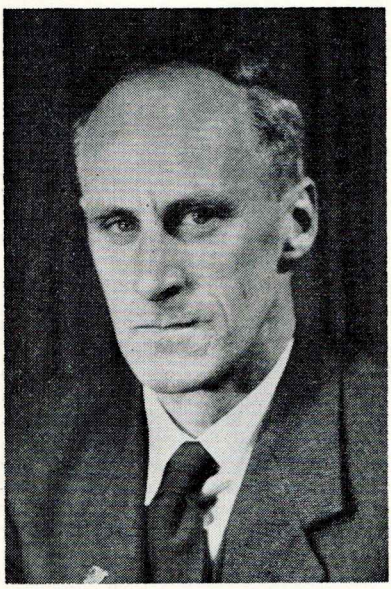
RESIGNATIONS:

Miss J. E. Payton, M.I.P.S., P.C.T., leaves the school after three years in the Commercial Department in order to go overseas.

Mr and Mrs G. E. Hasell, B.Sc. and MA. (Hons.) respectively, both joined the staff in 1956 and have taken a keen interest in many activities of the school. Mrs Hasell was careers mistress and Mr Hasell coached the first Hockey XI and organised shooting. They have both been appointed to the staff of the Motueka High School.

Mr R. H. Murray, M.A. We congratulate our editor on his appointment to the position of Head of the Social Studies Department at the new Aranui High School. Mr Murray joined the staff in 1953, from the New Brighton District High School, and has been interested in all phases of the life of the school. His many activities have included the coaching of the first Rugby XV for several years, research work on slow learners, librarian of the Technical Library and stage manager of the School Concert. He has also been a Company Commander in the Cadet Battalion for some years.

MR R. H. MURRAY



MR H. J. ROBERTSON

Mr H. J. Robertson joined the staff in 1952 after many years trade experience. He has been engaged in both the training of apprentices and the work of the High School, teaching Woodwork, Building Construction and Technical Drawing. During the war he served with the R.N.Z.A.F. and held the rank of Flight Lieutenant. He has been a Company Commander in the Cadet Battalion. Mr Robertson has been appointed to a position teaching Woodwork and Allied Subjects at the new Aranui High School.

Mr M. J. Glue, B.A., left us during the year to take up a position at the New Brighton District High School, teaching English and Social Studies. After several years' experience in the Primary Service and a period in the Army as an Education Officer, Mr Glue joined the staff in 1955. He has always taken a keen interest in drama and produced several plays at the school.

Mr G. R. Henry, B.A., has been appointed to the staff of the Cashmere High School after two years with us teaching mainly Mathematics and English.

RETIREMENTS:

This year has seen the retirement of three valued members of our staff who have all served for a considerable number of years. We wish them a long and happy retirement and thank them for their many years of faithful service.

Mr H. A. Kirby, M.A., Dip.Educ. The retirement of Mr Kirby at the end of this year terminates a period of forty years' service to education, more than thirty-two of which have been spent at the Christchurch Technical College.

MR H. A. KIRBY

Educated at Waimate District High School, Mr Kirby took up pupil-teaching in 1920, attended the Christchurch Teachers' College in 192122 and subsequently received appointments to the Southbridge (1924) and Waipukurau (1925-27) District High Schools. Only those who have taught in country district high schools can appreciate fully the organisation and preparation involved in teaching many subjects to many grades. It was in these schools that Mr Kirby served an apprenticeship that was to fit him so well for his subsequent work at this College to which he was appointed in 1927.

Upon appointment he at once associated himself wholeheartedly with the life of the College, his influence impinging up on almost every phase of school life. Boys while still at school were encouraged to take up athletics seriously and the personal example of Mr Kirby who was no mean exponent of the shot-put and discus, gave great encouragement to those under his charge. This work in the day school provided a powerful stimulous to the Old Boys' Athletic Club, the membership of which benefited from the outstanding performances of C. H. Matthews and other prominent Technical athletes of the time. This impetus of the thirties which Mr Kirby's work so ably provided has never been lost and the Technical College Athletic Club remains to this day one of the leading clubs in Christchurch.

His flair for organisation found expression in those early days in the 900 mile tour of the North Island thermal regions and Wanganui River basin; in the Eglinton Valley trip of 1937, when a party of 30 boys under the charge of Mr Kirby, and two other masters, toured on cycle the scenic resorts of Central Otago and in the trip to the Fox and Franz Josef glaciers—and it is to be remembered that cycling on the back roads of Canterbury and Otago in those days was not as comfortable as cycling along the tar-sealed roads of today.

Working with apparent unflagging energy, Mr Kirby applied himself to athletics, to cadet work, to life-saving, to Rugby football—always bringing to bear the same perfectionist attitude, the same thoroughness, the same enthusiasm. For many years he carried out the duties of adjutant of the secondary schools officers' battalion at the January Burnham military camps and during the war was seconded to A.T.C. In recent years he has given valuable service in training boys to become more efficient rifle shots.

As a teacher Mr Kirby has been excelled by few. His flair for lucid exposition, his sympathy for the slow learner, the clarity and logic of his blackboard work have influenced countless numbers of his students. In his first ten years he guided hundreds of Evening School students through proficiency certificate examinations in the days when a dozen errors in spelling failed the candidate. For many years he directed "Certificate B" through the trammels of the old matriculation examination and upon Mr D. Arnott's retirement reorganised the mathematics of the day school.

Other glimpses reveal him as the intelligence test organiser, as the careers adviser, as the debater par excellence over the luncheon table, as the indomitable exponent of lunch-hour chess in the old masters' common room.

Over the years Mr Kirby has inspired all those with whom he has come into contact. He has turned his hand to many subjects from some twenty odd in district high schools to a mere three or four in latter years, but all have been taught with the same amazing thoroughness and enthusiasm.

When former pupils inquire about the school most of them inevitably make reference to Mr Kirby and enquire in regard to his welfare. No teacher at the age of retirement would desire a greater tribute to be paid to him than that pupils who have passed through his hands should regard him with continued respect and affection.

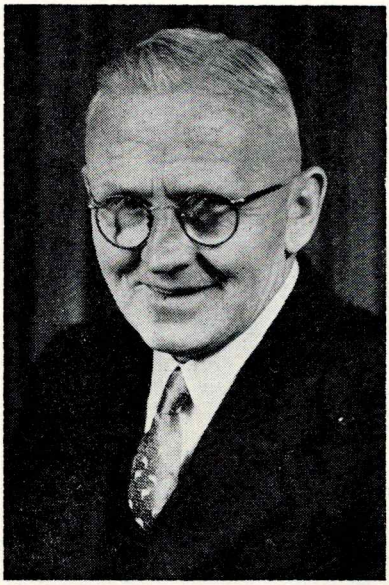
His influence has been of the highest and has no doubt been and will long continue to be a potent factor for good in the lives of the many thousands who have come under his charge.

To Mr and Mrs Kirby we extend our best wishes for the future and hope that Mr Kirby's retirement will be a long and useful one.

—H. P. Wise.

Miss M. L. McCrostie, Dip.H.Sc. (Otago Univ.). Miss McCrostie joined the staff in 1949 and in 1957 succeeded Miss M. B. Moore as Head of the Home Science Department. She has been concerned with the training of Homecraft teachers and her work as careers mistress will be remembered with gratitude by many former pupils who have benefited from her guidance, which always showed an understanding of the problems facing those leaving school. Miss McCrostie spent many years as a cookery demonstrator with the M.E.D. in Christchurch and this will help to account for the excellent catering at numerous school functions. She has acted as a judge at many cookery competitions, particularly at A. and P. Shows, and gave valuable assistance in the designing of the new kitchen at the College.

MISS M. McCROSTIE



MR T. K. McLORINAN

Mr T. K. McLorinan. After serving his apprenticeship in Dundee, Scotland, Mr McLorinan had over twenty-five years' experience in industry, including many years with the New Zealand Railways, before joining the teaching profession. He joined this staff in 1943 after teaching evening classes at both the Wellington and Hutt Valley Memorial Technical Colleges. Mr McLorinan has always been a keen athlete, and has represented Canterbury at the New Zealand Cross Country Championships. His work at the school with Harriers and Athletics and with the Technical Old Boys' Athletic Club is widely appreciated and has given many prominent athletes a sound start. During his long service to the College, Mr McLorinan has taught Technical Drawing, Mechanics and Mathematics to both High School pupils and apprentices.

TEMPORARY APPOINTMENTS:

We have been glad to have the assistance of:

Mr R. D. Francis, B.A. (English and Social Studies). Mr Francis has been an officer in the Mercantile Marine for over seven years.

Mr P. R. Climie, B.Sc., A.M.I.E.E. (Mathematics and Science) who was with us during the second term.

WE WELCOME:

Mr D. E. Hulme, B.A., on his return from Indonesia where he has been teaching English for the past two years as a member of a team from New Zealand under the Colombo Plan.

OBITUARY

Mr R. M. Smart

It is with regret that we record the death in December of last year of Mr R. M. Smart. Although he was on the staff of the College for a comparatively short time, his cheerful manner and willing co-operation at all times, were well known.

Mr Smart served his apprenticeship as a fitter and turner with Andersons, Ltd., after which he spent several years in Australia gaining experience, particularly in Marine Engineering. On his return to New Zealand he was employed by his own engineering company in Christchurch, as Manager and Director.

During the Second World War, Mr Smart served for four years with the Middle East Forces in the N.Z.R.E.M.E. attaining the rank of Staff Sergeant. He was for a time with the Long Range Desert Group and the First New Zealand Armoured Car Recovery Unit.

After the war he was with the International Harvester Company, Ltd., and before joining the staff in 1956, was for ten years manager of the Diesel Department of Messrs Woolf and Salvesen, Ltd. A keen sportsman, Mr Smart was a boat builder and enjoyed shooting and fishing.

He was a Grade A motor mechanic and taught Engineering subjects most effectively to both apprentices and High School pupils.

We extend our deepest sympathy to Mrs Smart.

GIRL PREFECTS' NOTES

One prefect returned from last year and in the unfortunate position of being the only one available to instruct the new recruits set up office in the Prefects' Room. Having been a prefect when the rest of the band were third formers called for a little adjustment in that quarter but we soon became an amiable and active group, sticklers for, and rigidly enforcing all rules.

The smart gold braid (a trifle grimy at times) was an ample warning of our approach but nevertheless Prefects' Meetings were well attended until a halt was called in the second term when we caught up with a few areas and were then continued. We have found, as in other years, that the first term is relatively quiet until we get an insight on the girls and they an insight on us. During the second term we are kept very busy but are able to relax a little in the third term when either the thought of freedom ahead or the prospect of holidays keeps everything running smoothly.

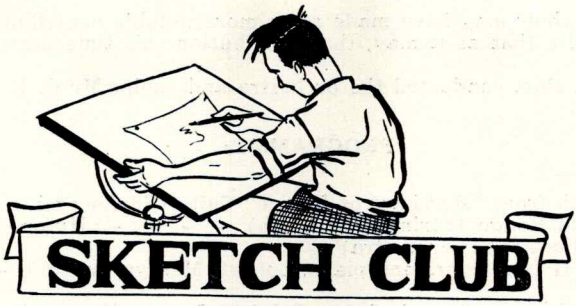
The Boy Prefects took the customary liking to our notice (idle jealousy), we got it back, but to avoid a similar petty theft we suggest that they are supplied one of their very own.

Our room in our absence has suffered the ravages of the above with the tiresome interchange of cushion, mats and other items of furniture with the gentlemen of the basement.

At the end of the second term the traditional match was played between the prefects. Unfortunately it was difficult to say who won but the score was 8-5. We should like to thank Mrs Hay for taking all risks involved and refereeing this match.

The girls have worked together in a pleasant spirit, carrying out their duties willingly. They have participated in most of the activities of the school—hockey, basketball, orchestra, social committee and Crusaders.

Our meetings on Wednesdays have assisted us in our work and we should like to thank Miss Stevenson for the encouragement and help she has given us in solving our various problems during the year.



The club has had a successful series of well-attended lunch hour meetings during the winter term in Room B.11. The following committee was elected to organise the displays: Diane Daniell, C.3A, James de Malmanche, U.E., David Colquhoun, B.E.5A, and Warwick Nicholl, E.4A.

The wide range of subjects and varied mediums of the paintings and drawing done by members out of school hours combined to make the displays colourful and stimulating. The helpful criticisms given at each meeting are very acceptable to pupils interested in improving their standard of work.

The annual prize awarded to the pupil with the best record of weekly contributions was won last year by James de Malmanche.

Prize-winners this year have been: T. G. Foster, U.E., C. Armstrong, E.3A, J. de Malmanche, U.E., Deidre Lawrence, H.4A, P. Wilkes, E.4C, W. Nicholl, E.4A, A. Cameron, E.3A, M. Henry, C5, D. Colquhoun, B.E.5A.

YOUNG FARMERS' CLUB

The club officers for the year consisted of Robert Brown, chairman; Philip Robinson, secretary; and Mr G. R. Lyall, advisory member.

Lectures and films were held during lunch hours throughout the year and a field day is planned after the end of year exams.

Large numbers in the Agriculture courses are making it difficult to run club meetings at a time to suit all members, and it is not always possible to arrange speakers for short lunch-hour meetings. Some re-organisation of our club may be necessary in the future so that all members can take an active part in club activities.

ANNUAL CONCERT

As in 1958 the annual concert was held this year in the College Memorial Hall. There can be few finer school halls and the splendid setting of the "home ground" lent atmosphere which added to the fine entertainment provided by choir, orchestra and band.

Although practices have not always been well attended, the orchestra produced some work of good tone and a greatly improved continuity of intonation. Two most acceptable solo items with orchestral accompaniment were played by Mervyn Barker ("Sonatina in G," by Kahlau, arranged by Dexter—piano) and George Haywood ("Sparks," by R. J. Alford—xylophone). Haywood is also a member of the National Youth Orchestra.

Mr C. H. Hoskins, who has given a lifetime to band music, had the band playing with gusto and with almost surprisingly good musicianship when the age and experience of the players is considered. In past years the band has had its sprinkling of more mature players; this year it is composed entirely of day school boys.

The choral items for the most part were sung with pleasing tone and balance. The girls sang well and with generally clear diction and the senior girls dealt with the dialectal problems of "Ca' the Yowes" with some confidence. One of the best combined efforts was the singing of John Glass's "Praise My Soul, the King of Heaven," where the only blemish was one of diction in dealing with the admittedly difficult "praise Him, praise Him."

The school choir may have made some more notable contributions to some past concerts. Be that as it may, the contribution this time must go down as praiseworthy.

Mr F. C. J. Port conducted the orchestra and choir; Mr C. H. Hoskins the band.

   (b) Praise, My Soul, the King of Heaven (Combined Choir) John Goss, arr. V. Griffiths

GOD SAVE THE QUEEN

Conductor of Choirs and Orchestras: Frederick C. J. Port, B.A., Mus.Bac., L.Mus.T.C.L.; Conductor of Brass Bands: C. H. Hoskins; Leader of Orchestra: Arthur Gordon; Trainer of Drum Corps: A. E. Smith; Accompanists: Mervyn Barker, David Tranter, David Rowe, Kathleen Deer.

THE BAND

This year the band has been quite strong and every Monday morning we have played in assembly. The "old favourites" played in 1958 have been either burnt or put away. This year several members played in the New Zealand championships held in Christchurch on August 21. Two boys gained places. P Bowman won the under 17 A section for cornets and flugels and R. Hodgman was placed sixth in the under 15 section. H. Deer represented the school at the national band school at Lincoln during August. Captain C. H. Hoskins is once again cvonductors, assisted by the Sergeant K. Wearne, but more progress would be made if everyone came to practice. The results of the solos held in 1957 were (Mr F. John, adjudicator):

A Grade: P. Bowman 1, W. Deer 2, J. Riach 3. B Garde (slow melody): P. Riach 1, P. Bowman 2, W. Deer 3. Learners' Grade: D. Rees 1, N. Wilkins 2, M. Sparrow 3.

The 1958 results were (Mr S. Dougall, adjudicator): A Grade: A. Jones 1, P. Bowman 2, N. Wright 3. B. Grade: K. Wearne 1, N. Wilkins 2, B. Cope 3. Learners' Grade: E. Hobson 1, L. Roscanowski 2, B. Waterland 3.

This year's solos will be held in the last week of the third term, with Mr Ralph Simpson adjudicating.

—P. Bowman.

DRAMA NOTES

The Technical College entry in the 1959 Junior Drama Festival was a fantasy play, "The Slippers of Cinderella." The play was entertaining and the cast a capable one: Fairy Godmother, Carolyn Symington; Myra, Shirley Fisher; Twins (Polly and Dolly), Sylvia Hayward and Ngaire Smith; Belinda, Menuim Burns; Elise, Denise Harbrow; Agatha, Kathleen Deer; Jane, Lois Butcher; Jimmy, Sloan Woods; Prompt, Mary Hill. Sound effects and properties were skilfully produced by Madelaine Hughes, Margaret Taylor, Noel Wright, Susan Nichol, Denise Harbrow and Menium Burns.

GIRLS' LIBRARY NOTES

Librarians this year were: Linda Pascoe (head librarian), Lois Butcher (Deputy head), Naomi Fahy, Beverley Murray, Kay McMillan, Margaret White, Valarie Johns, Madeline Hughes, Jeanette Herron, Lynda Brine.

The girls had the use of the library on Tuesday and Fridays, and the librarians worked very well. The newcomers soon learnt the routine of the library and generally keeping the books in order.

In the second term Beverley Murray, Kay McMillan, and I had the task of selecting £10 worth of books from the East Bookshop, some of the money for which was collected from fines for overdue books.

I would like to take this opportunity of thanking the librarians for their excellent work throughout the year and especially Mr Sherrard for his endless work in organising the library to make it possible for pupils to borrow books.

—L. N. Pascoe.

This has continued to meet this year each Thursday during the lunch period. Attendances have varied from around half a dozen to well over twenty. Talks have been given on various aspects of radio theory and members have been encouraged to construct simple receivers. Quite a number of boys have made up one, two, or three transistor sets with good results, while Michael Lee has become quite a specialist in transistor superheterodyne circuits.

On various occasions the use of electronic test equipment has been demonstrated and such equipment has proved valuable in obtaining the best results from the receivers that have been assembled. While the range of ability and background knowledge among the members is great; it has been possible to suggest some project to meet the needs of most boys and develop their enthusiasm.

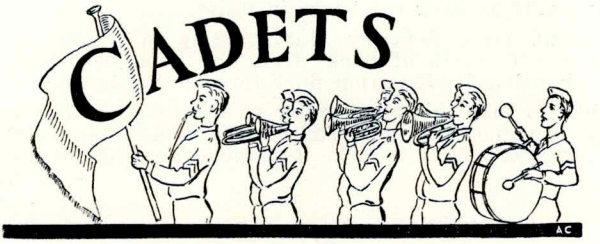
WOOLCLASSING

The woollen trade in New Zealand finds employment for a large number of the population, also the revenue derived from the production of wool and its products brings the greatest amount of revenue into the country.

Woolclassing has been part of the Agriculture course at this college since the very early days of the school and past pupils of this course hold many key positions in the wool industry in New Zealand. The present woolclassing instructor, who was a head classer at a leading wool firm in Christchurch, was a former pupil of this course. It is most important that wool be classed to a high standard because of the competition of the man-made fibres (synthetics).

Fourth form pupils are taught mainly the theories of woolclassing and shed management. Fifth form pupils are given more practical experience with wool breeds and counts of respective grades, including the skirting, rolling and sorting, etc. The pupils are then instructed in sorting the wool into "necks," "bellies" and "pieces," and after considerable practice at this they are taught to sort the "pieces" into their respective breeds and finally to be able to look at a fleece and say what breed of sheep the fleece came off, what count the wool has, then its length (preparing, clothing, combing, etc) and lastly what defect the wool has.

Woolclassing is a highly skilled occupation and competence is obtained only by practical instruction and experience. Fundamental to such competence is knowledge of standards of classification and how they are derived. Woolclassing is not an end in itself. It is a means to an end, which is that of providing a trade with a raw article which meets the market demand and which is true to grade. That is why the sheep-farmer and the woolclasser must have some knowledge of what happens to wool after the auctioneer's hammer has fallen.



Organisation for 1959 was as follows:

H.Q. Coy:
M.M.G., Mortar, Signals, Band, Medical.

A Coy:
Form III, Engineering.

B. Coy:
Form II, Building, Agriculture, Commercial.

C Coy:
A.T.C., Sea Cadets.

Staff:
C.O., Major J. J. Buchan, E.D.
H.Q. Coy Comd., Lt. R. Murray.
M.M.G., Lt. R. Murray.
Mortar, Lt. B. Frost.
Sigs., Lt. J. Sherrard.
Med., Mr L. McCulloch.
Band, Mr Hoskins.
Q.M., Lt. I. Sparrow.
A. Coy., Lt. I. Mackenzie.
2/Lt. L. Simpson.
2/Lt. Brown.
B Coy, Lt I. Sparrow.
2/Lt. R. Macleod.
C Coy., Fl./Lt. G. Lyall.
Lt. D. Wilden.
Lt. L. F. Luxton.

Training: As in previous years Barracks week was held during the first two weeks and proved an outstanding success. The Cadets were keen, the weather was kind, and Area 10 instructors provided useful assistance. Training during the year was in the last period on Mondays. The weather proved kind and much useful work was completed. More training films were shown and mapping and compass work were a feature of the programme.

Shooting: Unfortunately, owing to lack of enthusiasm among the senior cadets, no team was entered in the Imperial Challenge Shield competition or the Press Shield competitions. Results to hand for 1958: I.C.S. competition indicate that the Technical College team secured seventy-third place in the Empire and eleventh place in New Zealand. It was only team in Area 10 to be in the "Honours List."

Winners of Shooting Cups: Senior—Cadet P. Gidall; Junior—Corporal B. Greig.

N.C.O. Training: Sixteen cadets attended the course at Burnham in August vacation. Several senior N.C.O.s also attended a Refresher Course early in the year. Two cadets attended a senior N.C.O. course at Waiouru.

E.M.E.: It is hoped that an E.M.E. and Engineering troop will be started in 1960.

This year the Air Training Corps has made steady progress. Barracks B Week was marred somewhat by lack of equipment and too much time was spent on squad drill and rifle exercises. However an excursion to Spencer Park where we were able to engage in some field work, was much appreciated.

We are indebted to the Headquarters Instructors who drew up a splendid syllabus of instruction for the year. This gave direction to our training and some very worthwhile results have been obtained in airmanship, meteorology, guided weapons, fieldcraft and history, and customs of the service.

Unfortunately only one cadet attended summer camp and we are not strong in future N.C.O. material.

A number of cadets caused some concern because of obvious lack of interest. In 1960 no cadet will be allowed to enter the unit until he has shown that he has a real interest in air training and intends to give the unit his full support and co-operation.

WE ARE PLEASED TO NOTE:

That **Robin Loader** (1954-57) has graduated from the Police Training School, Trentham, and was awarded the Commandant's Prize for First-Aid.

That **Richard Blunt** (1954-58) and **Malcolm Brown** 1954-58) passed their qualifying examinations in architecture. Richard gained a first-class pass. Both of these former students had work exhibited in a recent architectural exhibition.

That **Noel Heal, G. Dell** and **R. J. Porteous** have taken up post-graduate scholarships in engineering overseas. Heal is with the British General Electric Company in Birmingham; Dell with Metropolitan-Vickers in Manchester; and Porteus with the English Electric Company at Stafford.

That **B. G. Grimwood** graduated Pilot Officer at Wigram in September.

That **Bill Cousins** is a technical trainee in the broadcasting service. He came top of the course at Trentham among students from all over New Zealand.

That **Bill Pearson,** also technical trainee in the broadcasting service. His work can be heard nightly on 3YC.

That **Janice Savage** is progressing well at Training College in Auckland.

That **Martin Shand** is training for the police force.

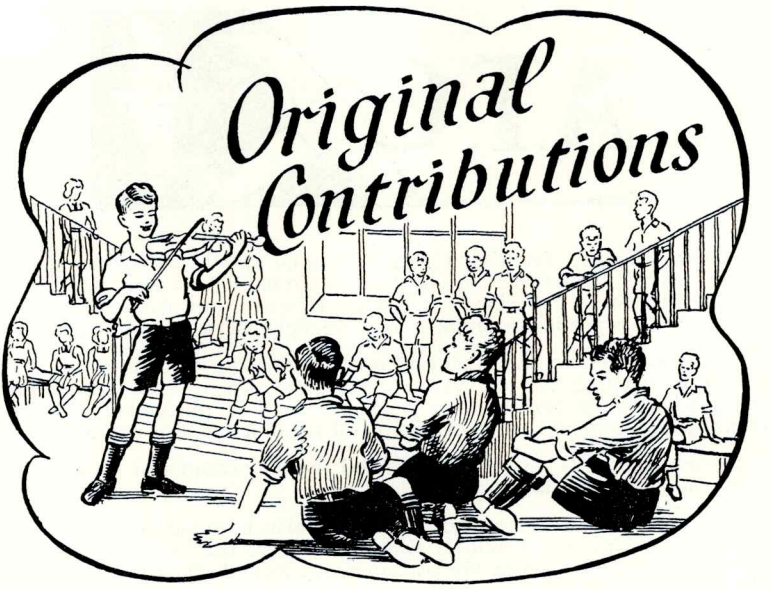
That **Barry Kington** is training to be a Child Welfare Officer. He is studying for a B.A., and is doing Pure and Applied Maths I. this year.

That **Terry Brown, Rod Langston,** and **Alan McMaster** are studying for Engineering Intermediate at C.U.C.

That **Morris Hooper** is studying for his Stage I. units for his B.Sc., with a view to becoming a school-master.

That **Bob Winters** is studying for 1st Pro. exams in his B.E.

That **Malcolm Brown, Seymore Evans, Barry Dacombe, Selwyn Hall** and **Roger Forgie** are all pursuing careers in drafting and architecture.



VERSE AND PROSE

MOUNTAIN FEVER

As night descends, I glance towards the hills,
The peaks I climbed, the passes I have trod;
Each stands aloft in his own aged abode,
Remote and silent, each one like a god.
Oh! Many the days I've squandered on these peaks,
And climbed a'top of many a rocky tower,
Oh! Many the times I've felt my ice-axe bite
The summit ridge, in spite of Nature's power.
Many are time I've packed along these tracks
And looked at Greenlaw standing there alone.
Many the times I've seen the hogsbacks mount
Above old Davie, chilling to the bone.
But my climbing days are over, and my rope
Will never more between two waist-loops lie,
My boots will no more tread the summit ridge,
But memories of such will never die.

PIE FLY

There once was a man of Guguy,
Who many years ago swallowed a fly.
But he didn't mind,
'Twas a very nice kind,
And it fitted in well with his pie.

CYCLING

A happy cylist has his fun,
Watching all the scenery; run
Up the hills with a moan and groan,
Down the hills with a joyful tone.
A cheerful cyclist takes his time,
For there are many hills to climb;
But he stops, when he has a mind
To scan the views of every kind.
He sometimes camps upon the way,
Thus he can ride, just as he may,
Travelling from place to place,
At a leisurely cycling pace:
But whether he be sad or gay,
Still the cyclist goes his way,
For there is no greater joy,
Than cycling fun for girl and boy.

—Garth Scott, E.3A.

THE WEATHER

I like to sit by the fire,
And watch the wind blowing
About the moulded leaves.
In the morning the frosts are cold,
For its the way it happens
But when summer comes,
I like it the best.
Because there's no frost, and cold winds blowing,
Or the rain to soak you to the skin.
To swim where the water is warm,
To fish where I can,
Catching many weird creatures;
To be safe on the rocks from the stormy seas.
But when the winter comes, it starts
All over again, for that's the way of nature.

MY YOUNGER BROTHER

Younger brothers are queer things; I know because I have one. I also have an elder brother and the contrast between the two is striking.

About two years ago, they were alike: both played football, both had scrawny tufty hair, both hated household chores, especially dish-washing. Now, all that is changed for Elder Brother. Suddenly he decided that girls weren't so bad after all. We noticed that he spent hours in front of the bathroom mirror, coaxing sweet little waves into his hair. For football there was left no time and, biggest wonder, he even could be persuaded to lend a hand with the washing-up.

Meanwhile, Younger Brother is still much the same as before. I dare say if you asked him what he liked best he would say "Footy 'n' food." That's the curious thing about younger brothers—they eat like horses, yet remain as skinny as rakes. I suppose this is on account of all the exercise they do when they participate in some of their senseless games such as "goodies and baddies", clod fights or a game in which the players rush around outside with hen's feathers stuck in their matted mops, yelling things like, "I gotcha! Ya gotta lie down dead!"

Younger Brother seems to have an absolute horror of girls. I think this is mainly because the members of his "gang" would laugh scornfully if they saw a boy of their age with a girl. Anyway, I know that if ever Younger Brother and I are, by some fluke, out together, he always walks about two poles ahead of me and completely ignores any remarks I might be silly enough to call out. The rather crushing reason for this, he says, is that "People will think you're my girl friend." I might add that I am fifteen. He is the tender age of eleven.

THE LIONS IN NEW ZEALAND

In 1959 the British Lions were here,
From North Cape to the Bluff they always raised a cheer,
With Jackson, Risman, O'Reilly, and Scotland too at times,
Fast, fast and faster still, they streaked along the lines.
Though in Provincial matches they nearly always won,
They lost the test at Dunedin, a thing they shouldn't have done,
They scored four tries, they tackled well and played with zeal and zest.
But when it came to kicking, Don Clarke's boot was best.
Jumping in the line-outs; pushing with a will,
They never ever found a way to beat our 'Tiny' Hill,
And although their play was clever, on dry or muddy ground,
The Kiwi went one better and retained the Rugby Crown.

—Stuart Taylor, E.3B.

THE "TERRIBLE" MENACE

Teddy-boy Blue come blow on your horn,
Your motor-bike silencer's dreadfully worn.
Your chance of existence is one in a million,
Not to mention the widgy who rides on the pillion.

—W. A. Gillanders, E.4B.

O'DONNELL McDOUGALL

O'Donnell McDougall was brave and bold,
He fought in the dark and he laughed at the cold;
He lived in a castle on top of a hill,
And he owed old King Twaddle a walloping bill.
The king he said, "Pay, or McDougall, you go."
O'Donnell McDougall refused, he said "No!"
The king got an army together and said,
"McDougall, pay up or you won't have a head!"
McDougall said, "C'mon, let's see you try."
The king he said, "Get him", and his army rushed by;
McDougall brought up the drawbridge and said,
"King Twaddle, you rotter, you can't have my head."
The king and the soldiers looked down in the moat,
The king he said, "Hurry! and get a good boat."
The army soon got one and lowered it in,
The king he turned round and said, "Righto, pile in."
O'Donnell McDougall he watched from the top
While he polished his silver and brass with a mop.
The king when they reached the other side, said,
"The first to get him can have ten loaves of bread."
McDougall looked down and asked for the time,
And said, "If you want to get me, then climb."
King Twaddle stopped brushing his own curly mop
And wondered how his men could get to the top.
McDougall was bored; so he looked down and said,
"If you don't get away I'll start dropping lead.
The king and his followers jumped in the boat,
When jolly McDougall pulled the plug from the moat;
The water glugurgled and soon drained away;
The king from the bottom he shouted, "You'll pay!"
McDougall yelled back, "You can't escape now,
I'll give you a choice and I'll give you an hour,
If I let you out and let you go free,
You must never come back or won't bother me."
The king he said, "Righto, whatever you say,
I'll send up some food to last you till May."
In no time McDougall had helped them all out,
The king shook his hand and made his amends;
And soon they were all such jolly good friends.
(McDougall still did not pay).

ELECTRICITY

Around the world the current flows,
From many Power Stations.
Series, Parallel, Combined Circuits,
Make long complex equations.
Large lines will stand the lightning bolts,
Or 20,000 A.C. volts.
But remember that all milliamps,
Are being consumed in electric lamps.
Power, power,
By the hour.
Surging forth in hurried streams,
Milling, drilling, always fulfilling,
Man's most vivid dreams.

FORMER TECHNICAL COLLEGE STUDENTS TAKE PART IN CORAL SEA UNDERWATER EXPEDITION

In May this year four enthusiastic young men left New Zealand shores equipped with masses of diving gear, food and, donated by various well-wishing firms, cameras adapted to film underwater.

Their destination: The Hermit Islands, half a degree south of the Equator, near New Guinea.

Kelvin Tarlton is the expedition's leader along with: Denis Fowler, Andrew Lawrence and Ron Crocker, the latter both being Christchurch Technical College ex-pupils. The purpose of the expedition is to undertake the collection of scientific marine and other specimens in association with the University of Canterbury and the Canterbury Museum; the making of a Documentary underwater motion picture and the hunting of underwater big game.

The Islands are carol atolls with very little vegetation and no hint of the tropical fruit and flowers promised by the travel agents. Copra, dried coconut meat, and trochus are the only money-earning commodities.

Only parts of the Islands are pestered with mosquitoes. Beautifully marked lizards, measuring two, to three and a half feet in length, act as scavengers and make inroads on anything digestible and even sample the not so digestible such as sox, skirts and shorts.

All the native girls are called Mary and the boys after their occupation,

cook, wash-boy, garden-boy. The native boy allocated to the divers being a capable builder and carpenter, is dubbed "Hammer". He was partly responsible for constructing the outrigger canoe which was made in the traditional South Sea manner by hollowing out a log to a U shape and building up the sides with planks. The outrigger lashed was across the gunwale.

The water of the Coral Seas are incredibly clear so it is no trouble to spot fish many fathoms down. Contrary to general belief, it is very difficult to get within shooting distance or camera range of the sharks as they turn tail and flee at the slightest disturbances. Wherever the divers swim, friendly little Pilot fish attach themselves to their masks or aqualungs.

A rare thrill was the sight of giant manta rays, the tips of whose wing-like fins can be spotted cutting through the water surface. These mantas measure from eleven to twelve feet across. The divers at first thought the mantas might charge when they became frightened, but they were able to stay an hour taking photos and studying them.

A notable catch which will long ring in the memory of one of the divers was the groper that snapped off the spear head. The spear lodged in the jaws of the fish—thinking to retrieve the spear, the lad thrust his arm into the gaping jaws—by muscular reflex during its death pangs the great jaws shut, a split second after the lad had withdrawn his arm.

We hope to be able to show their adventures when the film is produced—I wonder if we will recognise the husky, highly suntanned, and heavily bearded divers ?

—Deidre Lawrence, H.4A.

FARE THEE WELL

Meat pies—the tongue reaches out to caress their steamy fragrance on dank winter days when nothing cheers chilled bones so well as the warm, brown goodness that oozes out under the incision of the knife. What nobler vision could be glimpsed than a fine pie, cherubically round and baked to a point. "Friday shall be their die day, Saturday shall be batter day, and Sunday, hot rabbit pie-day"—crowed Masefield's poacher, watering at the chops.

Pies in their place and proper time are ambrosia; they taste most glorious when they come as if in answer to prayer. No one wants a diet of pies only.

One finds them in cafes, warmed up but utterly without the vital spark, or under cold glass, nearing the end of their days, sallow with age but freshly varnished to draw custom. Inside the soft, dead skin of pinchbeck pastry the meat is dark and of unknown origin or pink as a new-born rat, and dotted with gristly pockets of resistance. Enjoy your school pies, I say. There is nothing for it, but to reach for that last infirmity of ignoble cooking—the sauce—only to find that the bottle is empty.

—S. Rolton, Upper Sixth.

EARLY MORNING NEAR LAKE MONOWAI

Without opening my eyes, I rubbed my hand across my face to remove that irritating sandfly. I opened my eyes. All was dark. A cold chill in the air told me that snow had fallen close at hand during the night. I rubbed my hand across my sleeping-bag cover—it was wet. Still, that was to be expected. I glanced at my watch—half past three. Time to be on the move. Coldly, I pulled myself from my sleeping bag, donned bush shirt, shorts, boots, and parka, and fumbled around for some breakfast. Having eaten, and the time being 4 a.m., I picked up my rifle and camera and set off up the densely wooded ridge towards Lake Hauroto.

It was hard going in the tough, thick, leathery, wet Fiordland bush, and after climbing about a thousand feet above the lake, I sat down at the foot of a giant totara tree to rest. Suddenly a gilded finger pierced the darkness, and, far to the east, the sun began to betray its coming by lighting the skies in that direction.

Below, I could discern the black outline of the bush-clad spurs running down into the inky blackness of Lake Monowai. Somewhere on the edge of that desolate, bush-fringed expanse of water lay my boat and camp, and, as I rested and watched the coming of day, I remembered Cowper's words: "I am monarch of all I survey." No, this was not a land of habitation. No man was

within range of my eyes. I was now far from the land of hustle and bustle, of mathematics, problems and monotonous ritual. Into my mind crept the words of the Psalmist, who wrote: "When I survey the heavens, the stars which thou hast ordained, what art man that thou art mindful of him ?" No. this country was not used to being trodden underfoot by scheming crowds. This was God's own country. I wondered how many people had trodden the country in my view. Possibly five, probably not more than one. Perhaps, I mused, the Ngamamoe Maoris had passed this very spot in headlong flight to Dusky Sound after being defeated by the tribe of Te Pahi on the shores of Te Anau. Perhaps some weary prospector, lost, and on his last trip, had rested his weary bones at this spot and admired this same scene. Perhaps, I mused again, this was the country which drove the wanderlust into men's blood, making them impatient to see what was in the next valley, and the next, and the next. Perhaps this was the spirit of J. E. Flecker's pilgrim, who said: "We are the pilgrims, master; we shall go,

Always a little farther, it may be
Beyond that last blue mountain, what? with snow."

I was awakened from these contemplations by realizing that my electric torch was still burning, and the sun was now sufficiently high for me to do without it. As I pushed on, I surveyed, deep below me, the twenty mile mirror of Lake Monowai, reflecting in its crystal surface the snow-clad peak of Takitimo, from whose summit, the previous day, I had scanned the ridges I now trod. The growth was now becoming sparse, and I estimated that I should soon be on the tops, the nesting place of the rare takahe.

Soon I came upon a little high-country tarn, a bare ten square yards in area, and filled with brackish water. Here I stopped to rest awhile, and I had no sooner sat down than I drowsed into a light sleep. I know not how long I slept, (it could not have been more than 30 minutes), but when I awoke, I was surprised to see a dense mist, of the kind that often occurs on the tops, had fallen, and I could not even see the other side of the tarn. Considering this, I decided to stay where I was for the time being, in case I should lose my compass bearing in the fog. Slowly, and with the assistance of a light breeze, the mist began to clear. I blinked my eyes, shut them, and looked again. Yes, it was no illusion! There, barely twenty feet away stood a magnificent wapiti stag. Slowly, and with extreme caution, I reached for my rifle, slipped the safety catch, and took aim.

Suddenly, a feeling of extreme humility gripped me, to such an extent that I could not bring myself to apply that slight pressure that would mean the difference between a king of the beech forests and a rotting corpse. Was it right for me to kill him; for me, a mere trespasser in his domain, to kill him in cold blood, in his own country, in God's country ? I laid my rifle aside, focussed my camera, and fixed the shutter. In a twinkling his head flew in my direction, he sniffed the breeze, and was gone with the wind.

ARTHURS PASS GEOGRAPHY TRIP

Early in March Miss Payton and Mrs Neale took a group of girls from the fifth form on a geopraghical trip to Arthurs Pass.

We departed on the Friday night in a very crowded rail car, arriving at the Pass at 9.45. We were then greeted by one of the inhabitants who provided a van to take our gear to the Youth Hostel. Next morning, after a hearty breakfast, everyone set out for a walk to Otira. It was a lovely day and we had our lunch sitting on a boulder at a river bed. With the sun shining brilliantly down, we continued. By now we had paired off into groups, some a good deal further ahead of the others. The first group, on arriving at a cluster of houses, decided that this must have been Otira, but on walking a little further we spotted a sign which read: "Otira, 1 mile." When everyone finally arrived, a very tired lot, we found that the only suitable transport back was in the guard's van on a very long goods train.

On arriving at the Hostel footsore and weary, we sat around for a while, and then everyone went off in different directions to explore the Pass.

After tea, when it was dark, we all went up to see the glow-worms; although it was a very tiring walk, everyone enjoyed it.

Next day, before dinner, although it was raining slightly, we set out to visit the Punchbowl. It was a marvellous sight and well worth the strenuous walk.

In the afternoon, after a service in the chapel, we returned to the Hostel and set about packing up.

Everyone was very sad when we pulled out of the station that evening in the rail car.

We should all like to take this opportunity to thank Miss Payton and Mrs Neale very much for a most enjoyable week-end !

A THUMB BITE AT FATHER

(A tender story of near frustrated true love; as told by Gordon Bennett, B.4A.)

The story I am about to tell concerns two people. Now these people weren't just ordinary people. They were in love, madly in love with each other. You see, this story concerns none other than Romeo and Juliet, their real names, Romeotorestea and Julietanastia, having been changed at their marriage by their aunts and grandmas as the priest could not pronounce the names.

Every night, just after the birds had quietened down (they couldn't hear each other with the birds making their infernal racket), Romeo would come to Juliet's window and serenade her. Then he would hoist himself on to the window sill and woo and make love to her. Well, as it happened, one day Juliet's father won Tatts, so he decided to shift from his tiny one-storeyed house to a large mansion on the other side of town. Now this mansion became a problem to Romeo because it had two storeys. Romeo pondered for a long time until he remembered what Sir Isaac Newton had discovered. The use of the ladder.

So one dark night Juliet sneaked over to her bedroom window which was open, and softly coo-eed out into the night, as a signal to Romeo to come. She couldn't send it by flashlight because they weren't even invented. On hearing the signal, Romeo came galloping over the hills to Juliet's house. When he arrived there he saw the ladder that Juliet had placed ready for him. He scrambled up the ladder. He had three more rungs to go when suddenly the rung he was standing on snapped. It looked as though someone had weakened it. And they had. Juliet's father was aware that this would happen so he deliberately cut the rung to weaken it. (How would you like to have a future father-in-law like that?) Anyway, back to Romeo. There he was, with one hand grasping the house gutter, and one foot on the swaying ladder; he remained suspended between the canopy of heaven and the cold grey concrete. Romeo looked at the concrete below and began to shudder. He closed his eyes, A scuffle from around the corner of the house made him open them again. It was Juliet's father standing there with a Vickers machine-gun.

"Stay where you are!" he ordered. "I've got you covered, really I have. Now don't move."

"I can't very well at the moment anyway,." called back Romeo

"Don't hurt him, father!" called Juliet.

"Hurt him? I won't hurt him. Only KILL him when I lay my hands on him," replied her father. "Now, stay there while I get some rope."

As soon as he had gone, Juliet reached out and pulled in the ladder. Then Romeo climbed in through the window.

"What are we going to do?" asked Juliet.

"Let's run away and elope," returned Romeo. "Hurry, I'll help you to pack."

So, when Juliet's father returned, all he found was the ladder in the right position and an empty bed-room.

As for Romeo and Juliet, as far as I know, they are happily married; and friends, if you don't believe this story, don't worry. I don't either.

OUR COUNTRY

Do you ever think of our country ? Do the days, the weeks, the years go by without your thinking what type of country you live in ? Maybe you do, maybe you don't; but you've got no reason not to think about it.

Consider what goes on in other countries—revolutions, riots, demonstrations, starvation, war on your back doorstep such as the First and Second World Wars in Europe. In the States and South Africa men still fight the age-old battle; white man's better than black—the colour bar. Men out of work who are skilled, have to support their families. You will say we have had a depression, but governments fight out arguments and a depression would be

very rare indeed nowadays in New Zealand. Families do not starve because of lack of money as the government helps those who are in trouble. We are lucky we are an island—we don't have next door neighbours to go to war with. Most New Zealanders just go to work, come home, have pleasure in the week-ends, go back to work, have annual holidays—we don't have to worry where the next penny comes from because we are organised. Many civilisations many hundreds of years older than we, are no better off today than they were when they started.

New Zealand is a wonderful country. Education is the best, and it costs nothing but a bit out of taxes. Many people growl about the law of the country but it's there to protect you—it is to prevent crime. Also there is miles of entertainment, hundreds of holiday resorts, whether it's camps or hotels. People growl about tourists not coming to the country and things like that. Well, why invite them if they won't be satisfied ?

The country was discovered over a hundred years ago—what progress it has made. One motor vehicle to every 3.5 persons in the last census. Whether you like just relaxing or testing your skills of endurance, New Zealand has the widest sports scope in the world. I don't think anyone could be bored with nothing to do in his spare time. New Zealand is the second best fed country in the world. Here the population is a fraction of the size of the largest three cities in the world: Tokyo, London and New York.

New Zealand heads the world in development as far as atomic science is concerned. Lord Rutherford, from Napier, educated at Nelson College and Cambridge University, paved the way for the atomic bomb, nuclear power such as Harwell, Britain; "Nautilus" atomic submarine, U.S.A. New Zealand men have shown the way in many fields of endeavour, but you must remember our size—not over a population of 2½ million.

I am sure you will agree, after a little thought, that New Zealand is a wonderful country.

—John Sinclair, E.4.B.

Comments:

Matches: Against Ashburton Tech. we won 22—16; against Timaru Tech. we won 28—23.

Weekly Wednesday Matches, 2nd term: Won 1, drew 1.

Annual Match, "A" team v. 1st XV Rugby: Drew 8—8.

On the other hand the Timaru match was won by Christchurch only after a hard game had been played, the first half of the match, which was played in Christchurch on July 22nd, gave the impression that the Christchurch girls could run away with the match. The half-time score was 20-5 in our favour. The second half was a good deal harder and our girls were in danger of losing this important match. The Timaru girls shot 18 goals to our 8 in the second half, but the final score was 28-23 in our favour.

The annual match, **"A" Team v. Ist XV Rugby** team was a hard match and the final score was 8-8. There was foul play on the part of both teams so neither team could really be declared the winners. The goalies in our team managed somehow to shoot two goals without the aid of a goal post and though the match was originally a 9-a-side, the rules of the new 7-a-side game were somehow entangled. All in all the match was very successful.

Comments:

The team played enthusiastically and successfully on several occasions and worked hard all the time.

GIRLS' "A" HOCKEY

This year the "A" Team was represented by: Deidre Lawrence, Heather Bruce, Marie Robb, Lesley Duncan (vice-captain), Renee Condick (captain), Coral Jennings, Jean Ogilvie, Maureen Smith, Mary Hill, Ngaire Smith and Ina Crocker.

This year the team started out very well to win their first game against Cashmere High with a 8—2 victory. The following matches, which were played enthusiastically were all equally successful and the team won the grade. Towards the end of the season Carolyn Bennett our left full-back, left school, and her place was taken by Marie Robb, who filled the position equally well. In July, the team played Ashburton at Ashburton. The opposing team played well, with a sound combination, to gain their decisive 8—3 victory. This year, also in July, we had the Timaru team visiting. The game was played at Ensors Road and ended in a decisive 4—0 victory to us. The usual Rangiora game, which was to be held in Christchurch, was cancelled because of bad weather.

Our sincere thanks to our coach, Miss Payton, for her untiring efforts in coaching us and arranging the season's matches. We would also like to extend our thanks to Mrs Alston and Mrs Bain for refereeing our match against Timaru.

GIRLS' "B" HOCKEY

The "B" hockey team played with reasonable success in the D grade section gaining 5th place. Members of this team are:

Anne Jones (captain); Avis Milner; Lyn Stothers; Marie Sloper; Alison Jennings; Alison Beveridge; Julia Harris; Marie Robb; Rosemary Duffield; Sue Gough; Madelaine Hughes; Gillian Murray.

THIRD FORM HOCKEY—"F" GRADE

Team: C.F., Pat Sykes; R.I., Yvonne Chisholm; L.I., Pat Colvin; R.W., Coleen Kelly; L. W., Sandra Bishop; C.H., Hannah Sweetman; R. H., Caralyn Harrison (captain); L.H., Judith McKnight (vice-captain); R.B., Anne Liggett; L.B., Francis Perham; K.B., Valerie Roberts. Reserves, Yvonne Ellis; Celia Murch; June Johnston; Christina Chapman; Wendy Poole.

As captain of the Third Form Hockey Team, I would like to thank all the girls who have played for us this year. Our team was pretty well down in the competition, but the girls played their best. For most of the girls it was their first year at playing hockey. We did not always have a full team, but the girls still played their hardest. The reserves all played in the team at least once. Thanks for your co-operation, girls and I hope we have better luck next season. I'd also like to, on behalf of our team, thank our coach for her encouragement and assistance.

GIRLS' TENNIS TEAM, 1959

Team: Joan Parker; Kathleen Deer; Jean Ogilvie; Ann Jones; Alison Beveridge; Mary Hill; Rosemary Cooke; Lillias Armour.

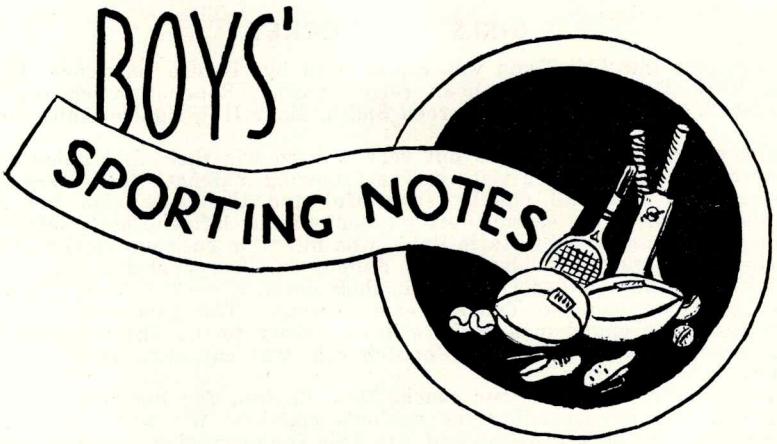
During the season the School "A" team played in the "B" Grade, had only moderate success, but all enjoyed their games.

TECHNICAL COLLEGE "REVIEW"

Editorial Staff: Editor, Mr R. H. Murray. Typography and Illustrations, Mr C. F. Cameron. Cover: The cover for this year's "Review" was designed and drawn by Gary Blackler, B.E.5A.

Our Printers: We are indebted to Messrs H. W. Bullivant & Company Ltd., 163 Armagh Street, for their assistance.

Our advertisers have contributed to the cost of this publication. They merit your support.



1st XV

Coach: Mr R. H. Murray.

The season began shakily when the College fielded a small and relatively inexperienced pack and backs uncertain of their own capabilities.

Attention to teamwork and improving fitness brought good results in the mid-season. Play in the Under 18 Grade during the May holidays helped maintain form.

Our thanks goes to Mr S. F. Hill for his help with forward coaching.

The Technical Club's Cup for the most improved player in the Ist XV., 1959, has been awarded to Barry Creagh.

The most disappointing aspect of play was weak tackling in later games.

The players:

Graham Dann: Captain, lock. Lack of football fitness affected early play. Became a good leader.

Brian Tallott: Vice-captain, wing and utility back. Good defence, looked for work on attack.

Warwick Nicholls: Young prop who developed physically and as Rugby player.

Robert McCreanor: When fit, a splendid forward. Considerable success as hooker.

Terry Papps: Reserve hooker, works well, but lacks pace. Much improved on 1958 form.

Murray Matheson: Vigorous lightweight prop or side-row. Defence needs strengthening.

Jon Matheson: Speedy side-row player. Lack of weight disadvantage in this grade, but Matheson showed great gameness.

Jim Gilmore: Lock, speedy and showed determination. Teamed well with Dann.

Cliff Martin: Side-row, converted from back. Speed and solidity, valuable in attack and defence.

Barry Creagh: A young player, who showed great improvement, particularly at the side-row position.

Gary Blackler: No. 8; a much improved player by virtue of better teamwork. A valuable attacking player and solid tackler.

Graham Fullerton: Solid half-back, who is improving all the time.

Trevor Forward: A solid five-eighth, who linked well, as well as using gaps to advantage.

Jim de Malmanche: Determined five-eighth. Accelerates quickly; tackles well.

Sloane Woods: Used as utility back. Inclined to run too far with ball. Game.

Alan Dunlop: Joined team late in season as full-back. A capable player.

Tony Lingard: Full-back early in season. Strong runner. Inclined to hang on too long.

Ron Paterson: Winger. Young player who developed well. With sprint training should have good future.

Tony Aker: Received few opportunities, but showed good team spirit. Toiled honestly.

Ray Watt: Developed confidence as expected. Played intelligently at centre.

REPORT ON RUGBY MATCH C.T.C. v. ASHBURTON TECHNICAL COLLEGE

The match was played in brilliant sunshine on a reasonably firm ground, with a light southerly blowing down the field. Ashburton won the toss, and elected to play into the wind.

Play was alternating fairly evenly from Ashburton to Christchurch ground, McCreanor gaining tight heads consistently for the touring team.

Following a loose ruck, De Malmanche broke through brilliantly to inside the Ashburton 25, the ball going in to Forward, then to Paterson, who was bundled into touch 5 yards from the corner.

Ashburton were awarded a penalty 30 yards out and near the touchline. Sampson, the Ashburton captain, left no doubt about the kick, the ball soaring high between the uprights.

Half-time score: Ashburton 3, Christchurch 0.

Soon after the commencement of the second half, play moved to inside the Ashburton 25. From a loose ruck, the ball went to Martin, who cross-kicked brilliantly to Tallot's wing, Tallot moving very fast, took the ball a yard short of the line and dived over 10 yards from the corner. Blackler made no mistake about the conversion.

Christchurch 5, Ashburton 3.

From a ruck following a lineout on the Ashburton 25, we saw Gilmore make a barging run to 5 yards from the goal line, where he got a pass away to Dann, who was tackled brilliantly by Sampson feet from the goal line. Soon after this, again following a line-out on the Ashburton 25, Blackler, playing as an extra five-eighth, side-stepped his opponent, the ball travelling on to Forward and to de Malmanche, who outpaced the cover defence to score 5 yards from the corner. Blackler's conversion hit the crossbar and bounced over.

Christchurch 10, Ashburton 6.

Throughout the final stages of the game, Ashburton attacked, but their forwards lacked the drive to win the ball from the heavier Christchurch pack, and when they did gain it, their movements were broken down at the inside backs by the efforts of Blackler and Fullerton. Shortly before time Sampson missed a penalty from 30 yards out.

Final score: Christchurch 10, Ashburton 6.

—W.R.W

PETONE v. CHRISTCHURCH

From the kick-off, the Petone forwards drove deep into Christchurch territory. Fullerton cleared with a long touch-finder, but the Petone forwards, led by McVennar and Stanely, soon brought play back into the Christchurch 25. However, the tables were soon turned, and the Christchurch forwards, led by Dann and Papps, drove through.

Petone were awarded a penalty kick, which Leslie made no mistake about.

Petone 3, Christchurch 0.

From the kick-off, the Petone forwards drove back again towards the Christchurch line. Petone attacked hard, but some brilliant defensive work by Forward saved the day. The Christchurch forwards broke through a line out in their own 25, took the ball to half-way, and nicked it back to Fullerton, who sent play to the Petone corner flag with a long kick. From the resulting line out, Forward carved through, but was caught just short of the line. From the ruck, the ball went to Hamilton on the blind side, but he was bundled into touch 5 yards from the corner. From the resulting line out, the ball went along the Christchurch back line to Watt, who kicked past his opposite number. Hamilton kicked on over the line, and Watt dived on it to open the Christchurch team's scoring. Dunlop failed to convert.

Petone 3, Christchurch 3.

From a scrum on the Christchurch 25, Martin took the ball from the back of the scrum, and kicked high ahead over the heads of the Petone pack. Paterson followed up fast, and took play into the centre with a jinking run. Man the Petone left-wing attempted to clear, but the ball went directly across the field, where Martin gathered it in on the sideline, and ran from the Petone 25 to score in the corner. Dunlop failed to convert.

Christchurch 6, Petone 3.

From broken play inside the Christchurch 25, Borlase kicked a field goal.

Christchurch 6, Petone 6.

Petone now began to have a superiority over Christchurch in both the forwards and the backs. Dunlop did some brilliant defending, but Petone could not be kept out, and Dawson dived over in the corner from loose play. Borlase failed to convert.

From a ruck near the Christchurch line, Borlase came into the Petone line as an extra man, and beat 3 Christchurch defenders to score near the posts. Archibold's conversion was successful.

Petone 14, Christchurch 6.

From broken play inside the Christchurch 25, Archibald scored near the corner.

Petone 17, Christchurch 6.

Despite a last minute bid by Paterson, who showed plenty of pace before he was pushed into touch near the corner, the Petone defence could not be pierced.

Final score: Petone 17, Christchurch 6.

Team and Grade: 2nd XV Rugby. 6th Grade.

Coach: Mr Sparrow.

The Team—Backs: Full-back, B. Bruton; wings, R. Smith (captain), D. Rump, G. Hindson; centre, A. Dunlop; 2nd five-eighth, B. Hallinan; 1st five-eighth, D. McCosh; half-back, K. Blackler, P. Uhrbom. Forwards: No. 8, E. Hobson, T. Foster; locks, P. Larkin, G. Bell, N. Harlick; flankers, K. Kiddey, M. Willum; props, P. Fisher (vice-captain), R. Bentley; hooker, D. Rees.

Comments:

At the beginning of the season the prospects of the team appeared to be quite bright but as several boys left during the term the team was weakened. Those games which were lost were lost only by a small margin, except in the case of the St Andrew's "A" team. Half way through the season the team was put down a grade.

In the forwards were some good boys, but they failed time after time to pack down and get the ball out to the back line. The backs played well at times also but without any ball from the forwards, could not get a very good run unless the ball was kicked their way.

Results (5th Grade):

v. Xavier College, lost 3-6.
v. Christ's College, won 16-8.
v. West High School, lost 3-5.
v. St Andrew's College "B", lost 8-11.
v. Boys' High School, won by default.
v. St Andrew's College "A", lost 0-27.

(6th Grade):

v. Papanui High School, won 19-8.
v. St Bede's College, lost 3-8.
v. Boys' High School, won 5-3.
v. Shirley Boys' High School, lost 5-8.

Total: 76 points for, 81 against.

Team and Grade: Lightweight (Section 1).

Coach: Mr J. Sherrard.

Team List: W. Alderson (captain), M. Gilmore, A. Danrell, H. Deer, R. Sinclair, J. Sinclair, P. Searle, M. Horan, B. Morgan, M. Baker, J. Tatnell, T. Turnbull, L. Gemmell, B. Aldous, T. Wallcroft, R. Jorgensen, B. Heney, D. Gee, J. McKay, B. Robinson, B. Milligan.

Comments:

Played 10, lost 10.

This year's team was very young and light compared with the two lightweight team's fielded by the School last season. The few boys available within the weight limits was a further disadvantage.

Although defeated in every game, the team played with good spirit, especially in its second game against St Bede's, the competition winners, when it more than held its own until ten minutes from the end.

The forwards could not function effectively in the tight because they were always outweighted but they worked well in open play. Alderson, J. Sinclair and J. Tatnell led in the pack.

Lack of opportunity prevented the backs from showing their true ability. R. Sinclair, M. Gilmore, B. Heney and A. Danrell did good work. Behind a heavier scrum they would have developed into a dangerous combination.

INTER-FORM RUGBY RESULTS

South Hagley Park seethed with struggling humanity as eighteen classes contested Rugby games on the last Wednesday afternoon of the winter term.

Results were:

B.E.5A defeated B.E.5B, 8-3.
A.G.4 defeated C.4, 25-3.
B.E.4 defeated E.4C, 11-6.
B.4A defeated E.4A, 9-6.
B.4B defeated E.4B, 17-3.
B.3A beat E.3A, 13-0.
A.G.3 defeated E.3B, 15-3.
B.3C defeated E.3C, 16-3.
B.3B drew with E.3D, 6-6.

Referees were: W. Walker, T. Papps, T. Forward, J. de Malmanche, S. Wood, C. Martin, M. Matheson, J. Hamilton and K. Kiddey.

BOXING

The Boxing Club met on Tuesdays in the gymnasium during the lunch hour. This year some instruction was given in the third as well as the second term. Members of the club, who showed an aptitude for boxing were: E. Ashcroft, I. Barker, L. Bone, R. Boyce, H. Brokenshire, G. Brown, R. Hodgman, W. Parrott, D. Rees, H. Tucker, M. Todd.

HARRIERS

Approximately one hundred and ninety boys joined the school harrier group this year and as this is an increase of forty on last year's number, it would seem that the popularity of this sport is rapidly increasing. Quite a few boys from the school ran in inter-club races on Saturdays with some gaining good placings in these events. It is hoped that next year more boys will run on Saturday as this is splendid training for school races.

As usual our Wednesday runs were held from Bromley Park, Ensors Road and North and South Hagley. The school teams had quite a successful season winning their races against Petone and Timaru, although our performances in the inter-secondary schools' races were not as good as last year.

The Timaru race was held over the Glenelg course and, as usually happens, our boys gained quite a bit of ground on the long uphill section. Although R.

White of Timaru was the first home. Our boys won both the "A" and "B" grade teams races.

Results:

"A" Team: D. Tranter (2); R. Reekie (3); J. Ross (5); G. Heald (6); F. Shuter (9); P. Bowman (10). "B" Team: T. Craw (7); B. Coulter (12); J. Sinclair (15); G. Genet (16); Lane (18); R. Farrar (19).

Unfortunately, the inter-secondary schools' races were held the day after the Timaru run and this undoubtely affected the performances of the six boys who ran in both races. In the teams races the juniors were 3rd and the intermediates 5th. Individual placings were as follows:

Senior: M. Henry (34); G. Preston (36); V. Parkyn (38); K. Dawson (40); A. Kennaird (42). Intermediate: D. Tranter (7); J. Ross (28); P. Bowman (50); G. Heald (51); B. Murphy (52); F. Shuter (56). Junior: R. Reekie (3); P. Sheppard (11); C. Harris (22); P. Peterson (25); B. Clark (28); Lane (29). Congratulations to R. Reekie on his effort in this race as he was also placed 3rd against Timaru the day before.

The last race of the season was against Petone, resulting in a fairly comfortable win to our team. The run was mostly over roads with a stretch of cross in country in about the middle of the course.

The team was: D. Tranter (1); R. Reekie (3); G. Heald (4); B. Murphy (6); P. Sheppard (7); F. Shuter (8); J. Ross (10); V. Parkyn (11); C. Harris (14); A. Jolley (20); B. Coulter (21); B. Clark (24); The first three runners home all beat the previous best time for the course.

Finally, the harriers would like to offer their sincere thanks to Mr McLorinan and Mr Kirby who are both retiring from teaching at the end of this year. These two gentlemen have done great work for the harriers while they have been at the school and we wish them all the best in their well-earned retirement.

ATHLETICS

T. Pateman showed outstanding form in the senior sprints to set new records in the 100 and 220yds events. In both events, the records broken by Pateman had withstood thirty years of challenges.

G. Fullerton's new hammer throw record for the 12lb hammer bettered the figure set by D. Young in 1947 by 11ft 5in.

In the junior section W. Bradley established a new record of 113ft 8in in the discus throw, while M. Ansett equalled the record for the 100yds hurdles.

Results:

Senior Championship: R. Farrar (W) 1, J. de Malmanche (W) 2.

CRICKET

FIRST CRICKET XI

This year's XI was composed of the same players as last year's with the exception of Russell, Rennie and Tucker. The first XI must be congratulated on their fine effort in retaining last year's form to be the winners of the 3rd grade C. competition for the second year in succession. The team also must be congratulated on their fine sportsmanship and on their keenness. The XI's right arm medium paced bowler, Tony Aker, performed brilliantly this year by taking a total of 40 wickets at a cost of 6.2 runs per wicket. This very fine bowling was assisted by some excellent fielding by M. Kington fielding in the slips. The newcomers to the first XI were as follows: D. Yee, G. Clarkson and B. Creagh.

B. Bruton (captain): Third year in the first XI. Batted well throughout the season, scoring 502 runs, finishing with the excellent average of 49.6—highest scores being 101 not out, 93, 66 and 56. He executes his shots with power and precision and shows definite promise for the future. Along with Tucker, was chosen to play for the Canterbury third grade representatives against Mid-Canterbury.

G. Blackler (vice-captain): A much improved player. A batsman who could develop into a fine player. Also is a useful bowler and a keen fielder.

C. Martin: Scored well this year as an opening batsman. He scored 65 in the match against Petone. Also opened the first XI's attack as a fast bowler. Shows promise.

J. Hamilton: This year's other opening batsman for the first XI. A player who has improved in all departments of batting this year. A very keen player who should develop into a solid batsman. Fielding could be improved.

E. Yee: A batsman who started slowly, but later in the season came back fighting, showing some forceful batting and delightful strokes. A useful right arm medium pace bowler. A good fieldsman.

T. Aker: A bowler who can be relied on in the most difficult of circumstances. He bowls a right arm medium fast outswinger with an off break as well, which beats many a good batsman. His fielding needs improving. A useful batsman.

A. Dunlop: A batsman who in the past has proved himself, did not strike form this season. Luck was not with him, but lack of practice and concentration were also contributing factors. Also is a good right arm medium fast swing bowler. A good fieldsman.

M. Kington: As a batsman did not make the most of his opportunities and lacks concentration. One of the best fieldsmen the first XI has seen for many years, along with last year's captain, G. Russell.

G. Clarkson: A keen player who should develop into a sound batsman. Could practice more often. Also a good fielder. One of the XI's new members.

B. Creagh: Is also a new member of the XI. One of the best spin bowlers the first XI has had. Batted very well towards the end of the season. As he acquires more confidence his bowling should improve. A good fielder.

D. Yee: A brother of Ewen Yee, should improve with more practice and develop into a dependable batsman. At present his shots lack power and fielding could be speeded up.

G. Price: Twelfth man for the first XI during the season. Should be a member of the first XI this coming season providing he repeats the form which he showed in last year's second XI.

J. Tucker: An excellent left arm off break bowler. Captured many valuable wickets in the past season. He bowls slow, well flighted spinners which incline to drop at the last minute. Batted extremely well during the season, scoring over 200 runs. An excellent fielder.

I. Rennie: Improved tremendously throughout the season in both batting and bowling. Proved himself as a worthy bowler, bowling medium fast swingers. An average batsman, but with more concentration should improve. A good fielder.

Christ's College Colts Match

One of the best Matches of the season was the one played against Christ's College Colts at Ensors Road. The winning of the competition was at this time in sight for the C.T.C. first XI. This was one game of the year which the first XI was looking forward to very keenly.

On the first day of the match the game started at 1.30 p.m. C.T.C. won the toss and elected to bat on a perfect batting wicket. Batting first, C.T.C. put up the splendid total of 230 for 3 declared, with some brilliant batting by the team's first four batsmen, Blackler, Hamilton, Bruton and Martin. A solid and determined innings of 101 not out by the captain, B. Bruton, who executed his shots with power and precision, was the outstanding feature of the innings. Blackler, Hamilton and Martin also batted soundly to score 106 between them.

Christ's College went to the crease at 4.15 p.m., but were dismissed very quickly and were all out by a quarter to six with the small total of 64. Armstrong and Lough were the only batsmen to show any resistance, and then they were dismissed for the same total of 13 each. They lost no further wickets in their second innings that day. Resuming play at 1.30 p.m. on the second Saturday of the match, Christ's College went in to bat again in their second innings. This time, in contrast to their first innings, they batted with more aggression and determination, and set up a moderate total of 120. A stimulating display of batting and determination was given by Prain, who scored a gallant 35. Also praise should be given to the solid batting of Armstrong, who scored 17 well deserved runs.

The C.T.C. bowlers, headed by Aker, Creagh, Martin, E. Yee and Dunlop, routed the remaining Christ's College batsmen in both innings and C.T.C. won outright by an innings and 46 runs.

The Petone Match

For the first time for several years, the weather was fine for the two days of the annual match against the Central Technical High School, as Petone is now called. The match was played this year at Ensors Road.

Christchurch won the toss and decided to bat on an easy-paced wicket. The first three wickets fell for 30 runs, but then a good partnership between Martin (65) and E. Yee (21) carried the total to 113. Christchurch were all out for 188 (Kington 21, Dunlop 15, Bruton 15). Edlin bowled well for Petone, taking five wickets for 77 runs.

Petone replied with a total of 165—the opening partnership between Moore-Carter (18) and P. Bhula (34) putting on 55 runs. The bowling of Aker was a feature of this innings—he finishing with the excellent figures of five wickets for 25 runs.

In their second innings Christchurch did not fare so well and were all out for 115 (E. Yee 32, Aker 23 not out).

This left the match in an interesting position as Petone had just under an hour and a half in which to make 139 runs to win the match. They set out to make the runs and for a time kept up the scoring rate required—approximately two runs a minute, but after losing three or four wickets were forced on to the defensive to ensure that the game would end in a draw. At stumps they had lost eight wickets for 90 runs and thus this interesting and enjoyable game ended in a draw.

Our thanks are due to Mr Todd, our groundsman, for preparing such an excellent wicket so late in the season.

Results, 1958-59

Versus St. Andrews: Won outright.
Versus Christ's College: Won outright.
Versus Boys' High School B: Won outright.
Versus Boys' High School A: Won outright.
Versus Linwood High School: Won on 1st innings, one day match.
Versus Christ's College Colts: Won outright by an innings and 46 runs.
Versus St. Bede's: Won on 1st innings.
Versus Shirley Boys' High School: Lost outright.

SOCCER

Teams were entered in 4th, 5th and 6th grades. The 4th grade team took some time to mould into a team, but towards the end of the season played better football. Their toughest opponent was Christchurch West High. In four games these teams each had a win and two draws. If C.T.C. had not been short in the final of the Knock Out Cup match it would probably have won instead of drawing 3 all.

C.T.C. won both the Championship Shield and the Knock Out Cup.

The 5th grade team started the season keen enough, but soon some lost enthusiasm until eventually the team had to be withdrawn from the competition late in July.

The 6th grade team showed promise and under Mr Singer's control was developing into a good team. The following boys played: R. Gillard (capt.), D. Mazey, G. Opsal, N. Jemmett, R. Calder, L. Watkins, E. Stewart, S. Martin, G. Drabble, M. Todd, D. McTurk, N. Wells, J. Bowman, J. Depree.

The following played in 5th grade team: M. Smith, B. Somerfield, A. McHugh, G. McHugh, G. Reisterer, D. Petrie, A. Atvars, K. Last, M. Ransley, W. Gillanders, B. Waine.

Fourth grade 6-a-side team: J. Campbell, P. Garters, M. Ansett, C. Chee, P. Thompson, B. Waine. This team won the 6-a-side tournament.

Inter-School Annual Fixtures

1st XI v. Timaru Technical College. Played at Ensors Road. Christchurch won 4—3. The goals were scored by Chee (1), Kington (1) and Campbell (2). The score flattered the visitors who were only saved from an overwhelming defeat by the excellent display by their goalkeeper. Shot after shot was stopped by miraculous saves. No player for Christchurch was outstanding as all combined well and played good football.

1st XI v. Central Technical College (Petone). Played at Petone. Central 5, Christchurch 1. Central were the first to score but Chee and Ansett combined well for Ansett to equalise. Central players were fitter, probably due to

Christchurch players taking full advantage of the week-end's entertainment. Half-time score: Central 3, Christchurch 1. Christchurch's weak link was between the halves and forwards, many passes going astray. Central scored twice in the second half, making the final score Central 5, Christchurch 1.

3rd and 4th Form team v. Ashburton Technical College. Played at Ashburton. Christchurch 5, Ashburton 2.

Comments on Members of First XI

J. Campbell (captain): Inside left. Third year in 1st XI. Junior National Cup rep. team and Christchurch Secondary Schools team. A tireless worker, good ball control, strong left or right foot shot. Has a future in football. The mainstay of the team.

P. Garters (vice-captain): Left half. Second year in 1st XI. Has good ball control. A good shot from well out. One of the hardest workers on the field.

L. Muncaster (goalkeeper): A really good goalkeeper, but lost form towards the end of the season. Could do better in clearing.

T. Mazey (right back): A good defensive player who clears well. Lacks finer ball control and a strong left foot.

B. Waine (left back): A good player in any position. Represented Canterbury in Under 16 A team as goalkeeper. Uses head well in distribution. Has good ball control but lacks speed and accuracy in passing.

P. Thompson (right half): Has a good shot from well out. Serves the forwards extremely well but inclined to play the right wing too much.

I. Hedgeman (centre half): Knows how to distribute the ball well. Will have to learn to control the ball better. Represented Canterbury in the Under 16 B team.

M. Kington (right wing): Has a good burst of speed and centres well but inclined to go too far.

M. Ansett (inside right): Has a powerful shot with either foot. Good ball control. Works in well with the forwards and halves.

C. Chee (centre forward): A fast, steady player who works in well with the inside forwards. Represented Canterbury in Canterbury Secondary Schools team.

D. Tallott (left wing): A player who can run faster than anyone in the team and shoot better than most, but who will not put much effort into the game. Can use either foot well.

D. Hickman (reserve): A keen player who will improve with practice.

R. Bowden (reserve): Plays well on the left wing and can shoot with either foot. Must learn to centre the ball.

L. Barrington (reserve): A trier and should improve with practice.

Wednesday Inter-School Competition

Three teams were entered originally, one in the senior, intermediate and junior grades. Unfortunately, the senior team had to be withdrawn early in the season, partly through insufficient numbers, but mainly a lack of enthusiasm shown by the boys as they were out-classed by senior teams from other schools as our Saturday players were not included in our teams.

The intermediate team played 7 games. Won 2, lost 4, drew 1 and had 2 byes, giving them a total of 4½ points.

Juniors did very much better, having played 9 games. Won 5, lost 2, and with 2 byes, a total of 7 points, placing them third in the junior competition.

HOCKEY

By Ewen Yee

In 1956 the College 1st XI played in 5th grade; won the grade without losing one game; in 1957, fourth grade; in 1958, third grade; runners-up, losing only one game. This year the 1st XI played in 2nd A, the highest grade a schoolboy team can play.

During the last four seasons the 1st XI has played 55 Saturday competition games: won 44, lost 5, drawn 6 !

The 1st XI of 1959 was probably one of the strongest teams the College has ever had. Throughout the season it beat all top teams of other schools. The success of this team was due to the excellent coaching of Mr G. Harper who himself, was a captain of the College 1st XI.

The team this year consisted of: E. Yee (capt.), T. MacKeogh (vice-capt.), G. Clarkson, D. Yee, G. Pragnell, I. Parker, G. Price, D. Evans, L. Macfarlane, L. Swanston, A. Hayes, T. Cowdrey and S. Rolton. Seven of the players played last year.

Congratulations to E. Yee and G. Pragnell for their selection in the Canterbury 2nd grade team. To D. Yee for his selection in the Junior National Cup team and the South Island Secondary School boys' team. These selections were a great honour to the College.

Thanks: We would like to thank Mr G. Harper for his sacrifice of valuable time to coach us, support us and his supplying of oranges at half-time right throughout the season.

We would like also to thank Mr Carrington who accompanied the team to Auckland for the tournament. We couldn't have had a better teacher for the occasion.

To Mr McLeod, for the tremendous amount of work he put in for us to make the Auckland trip possible, and the encouragement he offered to us throughout the season.

To Mr Todd for his excellent keeping of the hockey fields at Ensors Road.

Finally, we would like to thank the Technical Old Boys' Hockey Club for their generous help towards our travelling fee to Auckland. We hope to repay them by fulfilling their aim of a strong O.B. club.

School Fixtures

C.T.C. v. Timaru Tech. Won 9—1.
C.T.C. v. Ashburton. Won 2—1.
C.T.C. v. Petone Tech. Lost 2—3.

In the game against Petone Tech., only five out of the 1st XI were playing but the team turned on a sparkling display of hockey, although trailing 0—3 for most of the game.

Individuals

L. Macfarlane, goalie: Improved tremendously towards the end of the season. Played extra well against tougher opposition.

G. Clarkson, left back: A very reliable player. Saved the team on numerous occasions. Good cover defence.

G. Price, right back: Has beautiful ball control and stick-work. Very fit. With Clarkson, formed a very solid defence.

D. Yee, centre-half: An excellent player with excellent stick-work and trapping; fed the forwards well.

T. MacKeogh (vice-capt.), right half: Lacked fitness at the start, then came back to a fighting form later.

T. Cowdry, left half: A player with determination; could improve with his trapping. Plays better against tougher opposition.

E. Yee, centre forward (capt.): Scored most of the goals for the team. Played at inside right towards end of season and penetrated better when he combined with the wing.

J. Parker, inside right: A very clever player, with good stick-work. Played at centre forward towards end of season and became more determined and vigorous.

L. Swanston, inside left: A player of high potential but lacks penetration at the moment. Should make an excellent player with more experience.

G. Pragnell, right wing: The key man on attack; good stick-work and trapping; has a well-placed centre hit.

A. Hayes, left wing: Very speedy but keenness was his main fault, getting continuously caught off-side.

S. Rolton: Another promising player; dangerous man in the circle. Scored 6 goals in one game.

The team played 12 competition games this season. Won 7, lost 2, drawn 3. Goals for 30, against 18.

TENNIS

The 1958-59 season was a very successful one, although there was a distinct drop in the number of pupils playing. The keenness of the players fully made up for the drop, however.

Two teams were entered in the Inter-Secondary Schools Competitions. The B grade team consisted of R. Blunt, T. Papps, B. Kington, W. Goodman and D. MacCosh. This team was quite successful, finishing 3rd in the com-

petition. The C grade team, although not quite so successful, improved greatly as the season advanced. Our congratulations go to Richard Blunt who won the school championship for the fourth year in succession.

It was with deep regret that we learned that Mr Murray is leaving us at the end of this year. We wish him well in his new position.

On behalf of the players I would like to thank Mr Murray, Mr Buchan and Mr Brown for the work they have put in during the past season. I recommend that all pupils should join an outside club and receive the benefit of good facilities, for it is the only way they can improve their standard of play. We are all hoping the coming season will be a highly successful one.—T.P.

SWIMMING

Two new records were established in the 1959 boys' swimming championships held at the Centennial Pool.

In the junior 55 yards event, L. Gemmell set a time of 32.4 seconds, an improvement of 1.4 seconds on the previous best. In the inter-house relay, Hight House recorded 5min 17.8sec., some 14.2sec faster than the time set by the previous record holder, Wakefield House.

LIFE-SAVING

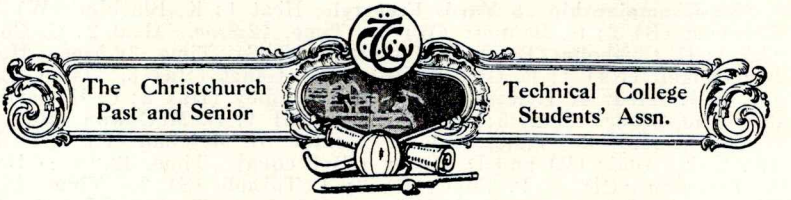
Once again this sport attracted a large following, especially from the new boys this year; in all almost 100 beginners to the sport joined the ranks.

It is becoming increasingly difficult to achieve a great deal in the first term of the year because the Centennial Pool is now much used by secondary schools and other swimming clubs for their annual sports meetings. Examinations therefore are being left over almost entirely till the 3rd term.

We have been excellently served this season by two senior boys, R. Gray and B. George, both of whom carried out a great deal of the supervision of the sport and were responsible for a high degree of efficiency being maintained. They also passed their Bar to Award of Merit examination, a distinction few have previously achieved in the school. Campbell also shared in this honour.

Other awards gained during the season were: Award of Merit 6; Bar to Bronze Cross 4; Bronze Cross 15; Bar to Bronze Medallion 7; Bronze Medallion 17; Instructor's Certificate 1.

Masters-in-charge: H. A. Kirby, B. Frost, R. Brown.



Patron: Mr D. W. Lyall; President: Mr A. F. Fuller; Past President: Mr E. A. Sibley; Vice-Presidents: Mrs R. Wenmouth, Mrs B. E. Henderson and Mr I. Jackson; Hon. Secretary: Mrs B. Robinson; Asst. Secretary: Mr R. Gray; Hon. Treasurer: Mr R. Black; Hon. Auditor: Mr L. F. Luxton; Delegate Board of Managers: Mr W. D. Johnstone.

The Committee of the P. & S.S.A. congratulate all clubs on their success on the sports field and of the individual members of the various clubs who gained representative honour.

The Club is still holding indoor bowls evenings and more players would be very welcome.

We are pleased to report that Mr Arthur Fuller, our President, is making good progress and it is hoped that it will not be long before he is once again at home.

A reminder to all present-day pupils that they are welcomed as Club members. A small subscription of 3/- is payable.

Our thanks go to the Principal and the Board of Managers for the use of the College facilities and sports ground, and to Mr Todd for the work he has put in at Ensor's Road.

TECHNICAL OLD GIRLS' CRICKET CLUB

The Technical Old Girls' Cricket Club fielded one team in the Senior Competition in which they were runners-up to the winners, Mai-Moa.

Competition was very keen throughout the season, especially between the three finalists: Mai-Moa, Technical and St. Albans.

These three teams had very close games, especially in the final in which all three were even on points.

The outcome was that Technical beat St. Albans on the first innings, and Moi-Moa beat Beckenham outright, leaving Mai-Moa the victors, Technical second, and St. Albans third.

Congratulations go to Miss Elizabeth Johnston who made her debut in Canterbury's 2nd XI at Dunedin. Elizabeth who, although she has been playing for two seasons, made second highest score in the match which they won.

Miss Pat Moore, captain of the Technical team and vice-captain of the Canterbury team, had the highest batting average in Canterbury last season.

Miss Christine Moore (no relation to Pat Moore) played once again for Canterbury's 1st XI at Auckland and although one of the younger members of the team, has proved herself a promising all-rounder.

TECHNICAL OLD GIRLS' BASKETBALL CLUB

This year, the Technical Old Girls' Basketball Club entered eleven teams in the Canterbury Basketball Association's Competitions.

The F team, which is comprised of girls from the School A team, won the third grade competition and was also successful in winning its grade in the annual tournament. The E team was successful in winning the senior handicap tournament. Our senior team was again a very strong one, and this team was runner-up in the senior grade, the annual tournament and the handicap tournament.

The following girls gained representative honours: Senior grade: Jean Fuller, Pam Edmonds, Cath Brown and Marina Fisher. Third grade: Maureen Collier, Lorraine Yates and Glenys Vogel. Fourth grade: Pam Grafton. Fifth grade: Yvonne Southam. Jean Fuller, Pam Edmonds and Marina Fisher were also selected for the South Island team and Jean Fuller and Pam Edmonds have been selected for the New Zealand Trials.

Jean Fuller player her last season for our Club this year. This season was the ninth consecutive year in which Jean had represented Canterbury and we of the Technical Club will miss her from our senior team next year.

This year we have again had the use of the South Christchurch lighted tennis courts for practice. Practices are held every Tuesday evening and the facilities provided at the courts have been invaluable.

We have been coached this year by five ex-players of the Club, namely Misses Edna and Helen Yates, Mrs Dorothy Hopping (nee Fraser), Mrs Joyce Lee (nee Fraser) and Mrs Betty Rowe (nee Newey). We take this opportunity of thanking them for their help during the past season.

At the end of the season we had a visit from two teams from the Dunedin Technical Basketball Old Girls' Club. Our second and third grade teams entertained these girls and everyone enjoyed their visit. The Dunedin teams won both matches and they were able to take back to Dunedin a cup donated by Mrs Ursula Everett (nee Templeton).

We would like to extend a cordial welcome to all pupils of the school to join the Technical Club.

TECHNICAL OLD GIRLS' HOCKEY CLUB

Officers of the Club—Patroness: Mrs D. W. Lyall. President: Mrs Timlin; Vice-Presidents: Mrs McGregor, Mrs H. Leigh, Mrs G. Robinson, Mrs Folley, Mrs J. Thompson, Misses E. Byrne, I. King, T. Hocking. Hon. Secretary: Miss P. Arbuckle. Hon. Treasurer: Miss E. Johnson. Club Captain: Miss C. Jennings. Delegates C.W.H.A.: Mrs Timlin, Mrs McGregor. Committee: Misses J. Ogilvie, Towner.

The club has had quite a good season, entering teams in the 2nd, 5th and 6th grades. The senior team was very successful, considering it went up a grade, losing two games only at the start of the season and these losses were due to the lack of practice.

The enthusiasm of the lower grade players is very encouraging. These teams did not have many wins but enjoyed their games. The 5th grade derived much satisfaction out of holding the unbeaten team in the competition to a draw.

The club entered three teams in a six-a-side at Ashburton, two junior and a primary school team. Luck did not come their way but they had an enjoyable time. On that same day the senior team played a senior reserve team from Wellington Tech. at Ensors Road. Next year a team from the club is hoping to travel to Wellington for a return match. The club was fortunate in having the services of Mrs J. Tolly, both as an umpire at Ensors Road and as a reserve player. Both she and her husband gave the club yeoman service.

The club would like to take this opportunity to invite past and present pupils to join the club and enjoy a season with the green and gold. We would like to conclude by congratulating B. Chatterton and E. Johnson in gaining representative honours during the season.

CHRISTCHURCH TECHNICAL COLLEGE AMATEUR ATHLETIC CLUB

Officers

President: Mr W. D. Johnston. Club Captains: Miss R. Hames, Mr G. F. Hack. Deputy Club Captains: Miss F. McBeath, Mr A. W. Richards. Committee: Misses L. Anderson, J. Wicks, G. Wicks, D. Lagrosse, L. Duncan, Messrs P. Anderson, L. G. Jones, D. Blunt, C. F. Reece, D. Vaughan. Secretary-Treasurer: C. Sanderson. Chief Coach: V. Briedis.

The club has again had a most successful season, winning the Open and Under 16 women's championships and junior men's championships and coming second in the Open and the Under 17 men's championships. The Pat Boot Shield for team and relay events was also retained by the club. The club won every Canterbury sprint title in the five grades.

At the N.Z. Championships club members obtained all Canterbury's points.

During the season members gained 42 championships, were second in 20 and third in 24.

End of Season Social, held at Albion Club Rooms on Saturday, 17th October.

The Club wishes to thank all Coaches for their excellent support during the season and hope to retain their services in the future.

An invitation is extended to Day School players leaving school to join up with the Club.

Our thanks to Mr Lyall and the Board of Managers for the use of the gymnasium and the Rugby ground at Ensors Road; to Mr George Tod, groundsman, for marking out and general maintenance of the ground; and to Mr Ray Murray for his good work in connection with Rugby at the school and for his good liaison work with the Club.

TECHNICAL OLD BOYS' CRICKET CLUB

The season ended 1959, was highlighted by the winning of two grades and high placings in the other three, and the election of Mr E. A. Sibley as a Life Member.

Entering five teams in the C.C.A. competition was a big step, but the wonderful sustained support of most members made it a resounding success.

The financial position of the club has never been more sound and gear has once again been of the highest standard. New members from the College enabled us to make our record entry and we look forward to the continued support of all Old Boys. The success of the club goes hand in hand with the revival of cricket fortunes at the College this year and schoolboys are welcome additions to the club elevens in holiday periods.

Facilities at Ensors Road, so generously made available by the College authorities, are unsurpassed in Christchurch and to the Board we extend our gratitude.

We have a true friend in Mr Tod, our groundsman, and his green pitches are famous amongst discerning cricketers.

All in all this was a really successful season, as all who attended the social evening would agree, and we look forward with confidence to 1959-60 season.

CHRISTCHURCH TECHNICAL HARRIER CLUB

The club was quite successful during the 1959 season. Once again we were very weak in members in the Juniors and Colts, and would like to see a better support from the school in future years.

Winners of trophies for 1959 season were:—Senior Champion, G. Smith; Junior Champion, D. Vaughan; Colts Champion, D. Tranter; Novice Cup, D. Tranter; N. Stanley Cup (winner Junior Sealed Handicap), A. Cook; D'Arcy Porter Cup (most improved junior), A. Cook; Best Performance Junior Cup, D. Vaughan; Runner-up Junior Championship Cup, A. Cook; Runner-up Colts Championship Cup, G. Campbell; Senior Gate, A. W. Richards; Road Race Cup, B. Cook; Club Road Race Shield (junior), D. Vaughan; Club Road Race (senior), A. W. Richards.

Books are old friends

AND NO FRIENDS ARE MORE USEFUL OR MORE ENDURING THAN REFERENCE BOOKS

You will know the Oxford Pocket and School Dictionaries from your school days. May we now suggest that you come into Whitcombe & Tombs and make the acquaintance of the **Concise Oxford Dictionary** at 22/6, and the **Shorter Oxford Dictionary** at £8/7/6.

While we are talking about Oxford books, have you seen the **Oxford Companion to Music** at 87/6; **Oxford Companion to English Literature,** 43/3, and the **Oxford Companion to the Theatre,** 55/- ?

The Oxford University Press is world-famous for its Reference Books and probably their greatest contribution to the World of Knowledge is their famous **Oxford Junior Encyclopaedia,** 13 Vols. at £26/5/- set.
